8 Sales, transfers, cancellation and/or use of treasury shares and subsidiary holdings as at the end of the financial period.

Not applicable. During the financial period, no shares were held as treasury shares and there were no subsidiary holdings.

### 9. Accounting Policies

For the current financial period, the Group and the Company have adopted all the relevant new or revised Financial Reporting Standards ("FRS") and interpretations ("INT FRS") which came into effect for the Group and the Company from 1 January 2017.

The adoption of these new or revised FRS and INT FRS does not have any material impact on the financial statements of the Group and the Company for the financial period under review.

The accounting policies and methods of computation adopted in the financial statements for the financial period under review are consistent with those applied in the financial statements for the financial period ended 31 December 2016.

### 10. Review of the Performance of the Company and its Principal Subsidiaries

The Group recorded a profit after tax of \$1.8 million for the third quarter ended 30 September 2017 compared to \$0.5 million for the same period last year. The stronger performance was mainly attributed to higher total income, lower total operating expenses and lower allowances for loan losses.

Profit from operations before allowances was \$2.6 million, \$1.1 million or 76.5% higher vis-à-vis the same quarter last year. Net interest income increased by \$0.6m or 12.7% as the decline in interest expense outweighed the drop in interest income. Total operating expenses were well managed, with the decline of \$0.6 million or 15.4% coming largely from other operating expenses and staff costs.

For the nine months ended 30 September 2017, the Group's operating profit before allowances was \$6.8 million, compared to \$4.9 million during the same period last year. This is chiefly attributed to a decline in operating expenses by \$1.7 million or 14.1%.

In the current weak economic climate, the Group's total loan net of allowances dipped 7.9% to \$772 million compared to \$838 million as at 31 December 2016. In tandem with the lower loan balance, total customers' deposits was managed downwards by 1.2% to \$847 million as at 30 Sep 2017. Net write-back for loan losses amounted to \$0.2 million for the nine months ended 30 Sep 2017 compared to net charge for loan allowances of \$3.3 million for the same period last year. The Group continues to set aside adequate individual and collective allowances for its loan portfolio.

In the opinion of the Directors, no item, transaction or event of a material and unusual nature has arisen which is likely to affect substantially the results of the operations of the Group and the Company in the interval between the end of the financial period and the date of this announcement.

### 11. Comments on Significant Trends and Competitive Conditions in the Industry

Based on the Ministry of Trade and Industry (MTI)'s advance GDP estimates on 13 October 2017, the Singapore economy grew by 4.6% on a year-on-year basis in the third quarter of 2017, higher than the 2.9% growth in the previous quarter. On a quarter-on-quarter seasonally-adjusted annualised basis, the economy expanded by 6.3%, an improvement from the 2.4% growth in the second quarter. The strong performance was lifted by a stellar manufacturing sector which expanded 15.5% on a year-on-year basis.

However, although the GDP growth in the first three quarter is now at a robust 3.3% on a year-on-year basis, the official 2017 growth forecast remains unchanged at 2.5% which implies that quarter four growth could slow sharply. Against the backdrop of expected modest economic growth for Singapore with local economic restructuring challenges and global economic uncertainties and volatility, the Group will continue to be proactive in controlling our operating expenses as well as prudent and vigilant in managing and monitoring the business risk of our loan portfolio.
